

**PLACENTIA-YORBA LINDA UNIFIED SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

JUDY MINER

OCCUPATION: Governing Board Member/Teacher

It has been my privilege to serve the youth of our community as they prepare to become the leaders of our society's future. I want to continue my commitment with goals that reflect our Board of Education's work over the last four years:

Students are challenged to make significant progress toward achieving their own life goals in a safe learning environment and served by a competent, nurturing staff.

Parents of every walk of life, language and cultural background will be valued as partners in their children's education.

Fiscal integrity and sound judgment will continue to govern the management of the District's resources.

We celebrate a time of peace and progress in the history of our community. I hope to maintain your confidence in my leadership so that we may complete our many modernization projects, two new elementary schools and a new middle school, and a new high school to relieve overcrowding that my own children have experienced in their education here.

Placentia-Yorba Linda Unified School District enjoys an excellent reputation in the State of California for educational programs, personnel and facilities. I would be honored to continue to serve on its leadership team.
